User Guide

Version 2 (For Windows PC)

SimpleCall PC Dialler

The SimpleCall PC Dialler is an easy-to-use alternative to your landline or mobile for making cheap international calls. It's free and easy to download and all you need to get started is a personal computer with a Windows OS, speakers/microphone and an Internet connection.

Required Equipment

To install and use PC Dialler correctly, please ensure you have the following equipment and capabilities:

- A desktop computer or laptop
- Processor minimum of Intel Pentium III 1.3 GHz (or equivalent)
- Windows OS (7, Vista, XP or 2000)
- A broadband or wireless Internet connection
- Sound card (16 bit)
- Speakers and a microphone (internal or external)

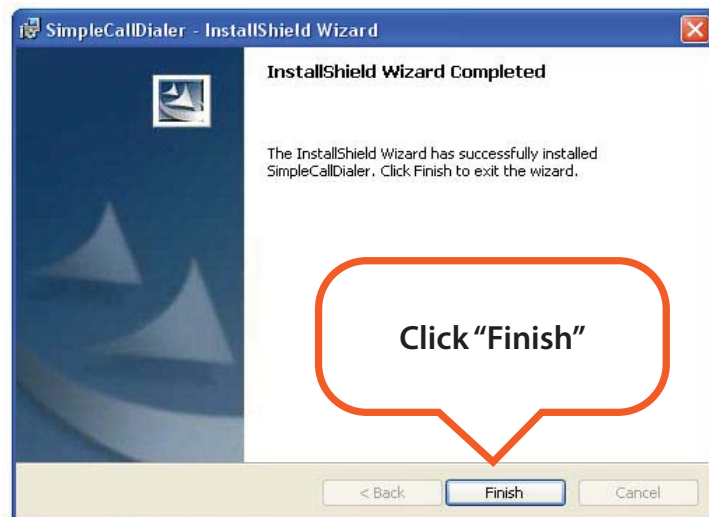

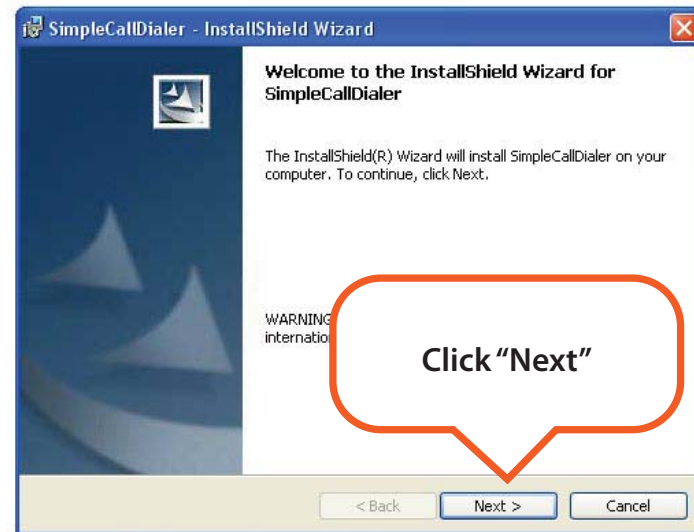

Step 1: Download and Install the Dialler

1. Go to <http://www.simplecall.com/download/pc-dialler/>
2. Click "save" to download on your local PC.

Download and Install the Dialler continue

3. Follow the prompts from your computer's Install Wizard, choosing "Next" and then "Finish"

Step 2: Set Up Dialler Account

1. Open the Dialler program by double clicking on the shortcut from your desktop, or finding the program from your windows menu bar.
2. You will be prompted to enter a username and password – this is different than your SimpleCall account log-in info, and must be obtained by contacting Customer Support at **0203 051 2928** or **support@simplecall.com**.

Step 3: Use the Dialler

1. Open the Dialler program by double clicking on the shortcut from your desktop, or finding the program from your Windows menu bar.

Making Calls

1. From the dial screen, you can enter your destination number by clicking the numerals on the dial screen with your mouse, or by typing out the numbers on your keyboard. You can clear numbers by using the backspace key, or by clicking the “Clear” button on the dialler screen. You do not need to enter access numbers or PIN codes – simply enter the destination number.

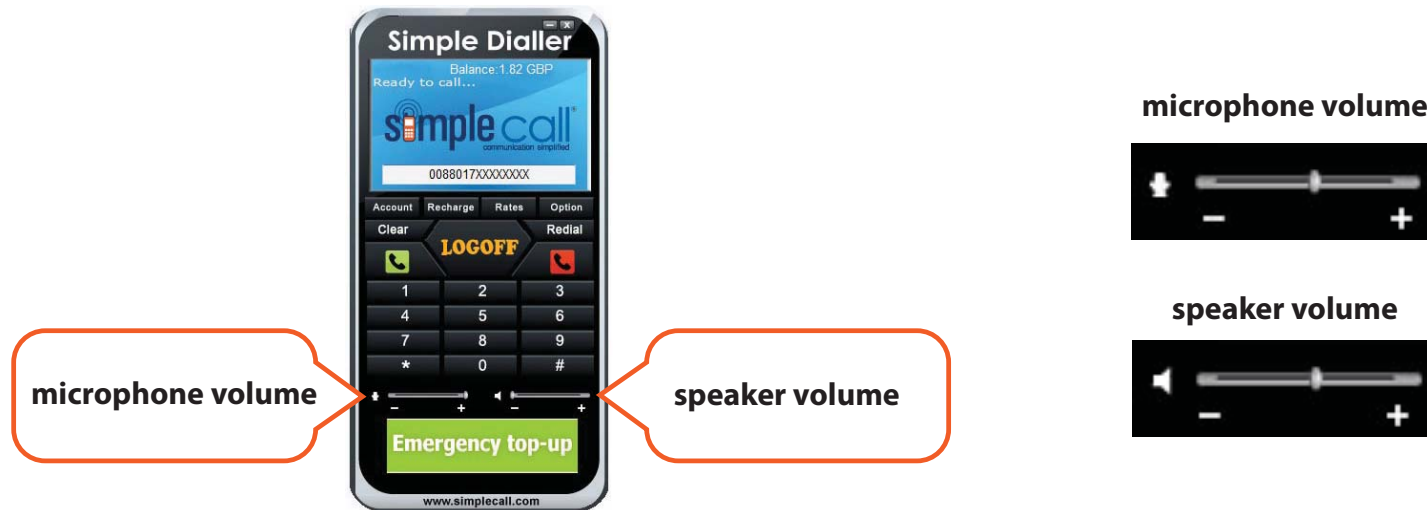

2. Once the destination number is entered, click the green phone icon button . While the call is connecting, the screen will read “In Progress.” Once the call is connected, the screen will read “Connected” and the duration of the call will be visible so that you can easily monitor your usage. You will only begin being charged once the call is connected.

Making Calls continue

- You can adjust speaker and microphone volume by dragging the bars to the left or right along the bottom of the dialler screen. If you have speaker or microphone issues, you can troubleshoot by opening the Control Panel on your computer desktop, and selecting Hardware and Sound.

- To disconnect the call, click the red phone icon button . The screen will read "Call Disconnected."

Using the Phone Book Feature

1. Access the Phone Book by clicking the “Options” button on the Dialler screen. A new screen will pop up, with options to Add, Delete, Call and Edit.

2. Add a new contact by clicking on “New Item.” Once New Item is highlighted, enter the name and number into the fields and click “Add.”
